

midterm1

A scatter plot showing the relationship between sex (male/female) and GPA. The x-axis is labeled 'sex' and the y-axis is labeled 'gpa'. Two regression lines are shown: a solid blue line for males and a solid green line for females. A dashed red ellipse encloses the data points, and a solid magenta ellipse encloses the regression lines. The text 'Error:sex' is written in magenta at the top left, and 'boards' is written in green at the top right.
